

# Health Charter COVID-19

## Our 6 safety & hygiene measures

Dear Guests,

Your safety and your trust are very important to us.

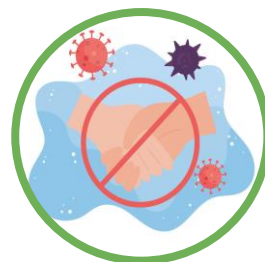

We have therefore put in place all the necessary and essential measures to guarantee impeccable hygiene.

St-Barthelemy is particularly preserved from the COVID-19 health crisis with only 6 cases confirmed since November 2019.

Our health measures are therefore intended for:

- Our guests
- Our employees
- The locals of Saint Barth Island

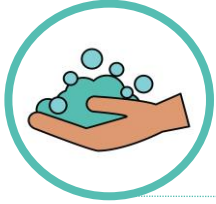

Here are the 6 compensatory measures that we guarantee for your safety:

## Our 6 safety & hygiene measures

The simplest barrier habits are still the most effective.

We ensure that our teams, our service providers, and our guests have easy access to our washrooms equipped with soap and gel to wash your hands regularly and in complete autonomy.

Wearing a mask is compulsory for our employees, our service providers, and our guests in all common areas.

We provide masks to all our guests and employees free of charge.

Hydroalcoholic gel and disinfectant products are available in our common living areas as well as in your rooms.

Our guests are informed of the nearest pharmacies and doctors.

The cleaning, disinfection and ventilation of rooms, villas and bungalows are reinforced. Our employees use homologated and specifically adapted cleaning products.

To prevent contamination we propose an online check-in. We favor payments by debit or credit card. We also remove unnecessary items in the room and at the reception.

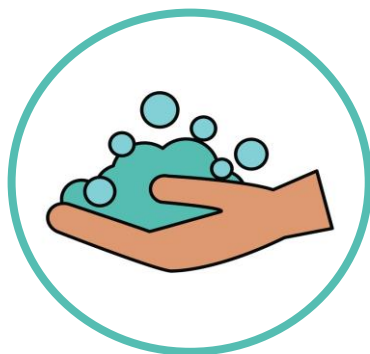

We respect the rules of social distancing. This obviously does not prevent us from being in conviviality. We look forward to welcoming you again with due regard for your safety.
